FINANCIAL AND COMMERCIAL.

The caim prevailing in Wall street had no inter-ruption until late in the afternoon, when the stock market became weak in consequence of telegraphic reports of a panic and large decline in wheat a Chicago. Now, the wheat market is to the Western thicago. Now, the whock market is to New York, the centre of speculation. Here our operators, as a general thing, confine themselves to stocks; there they deal in the products of the soil almost exclusively. The great panic which recently visited New York is just reaching Chicago. We find in the piethora of money in the panks the indisposition of Eastern capitalists to buy Western grain or to discount grain paper. The grain which has accumulated in Chicago, or which has been bought for future delivery, requires money to carry. The situation is exactly the same as it was in the New York Stock Exchange. The "bulls" in both places have had to sell, and hence the panic and decline. The rise in gold under clique manipulation tempted the "bull" operation out West. The decline to 130 a 131 has divested these operations of success, and the operators will doubtiess suffer heavy losses. It will be fortunate for the community if the nefarious system of grain speculation is broken up. With a lower tariff for the different grades it will be possible to revive our export business, which is the real source of national and social prosperity. Wheat must undoubtedly undergo the ordeal through which stocks have just passed. When it touches cotton it will reascend according to

dantly supplied, and the range of the interest rate on call loans was from 4 to 6 per cent. Whatever may be the eventual result of the crisis in Chicago our city banks have placed themselves in a very strong position to meet the demands of the fall trade. Looking at their condition now and a year ago, when they had a greater drain to meet than will be their lot this winter, we find a flattering state of affairs. The last bank state

The Albany and Susquehanna Railroad war has been amicably settled. The Erie Company is to lease the Susquehanna road for a term of ninety. mine years at an annual rental of seven per cent on the bonded debt of the road and stocks in bonds, amounting to \$6,500,000.
